RE: Georgia Certified Nurse Aide Registry

Dear Certified Nurse Aide Registry,

Alliant Health Solutions is contracted by the Department of Community Health to manage and oversee the Georgia Nurse Aide Registry. The Georgia Nurse Aide Registry will no longer complete hard copy reciprocity verification forms for a Certified Nurse Aide (CNA). All of the verification information requested are located for public view at [www.mmis.georgia.gov](http://www.mmis.georgia.gov). Please click the Nurse Aide/Medication Aide link below to verify certification for a CNA:

- Nurse Aide/Medication Aide Tab
- Search for a Nurse Aide - **Due to multiple certified nurse aides registered with the same name, it is suggested to search active and inactive CNA's using only a social security number without entering any other fields**

In addition to the website verification method, an Interactive Voice Response (IVR) system is available for Certified Nurse Aide Verification at 678-527-3010 or 800-414-4358. Select option 1 to search for certified nurse aide, then option 2 to enter a social security number or certification number for the CNA. The IVR will only provide written verification for Georgia Medicaid Providers.

Please contact our office at (800) 414-4358 or (678) 527-3010, if you are unable to verify a nurse aide certification or if you have additional questions regarding the certified nurse aide registry.

Thank you,

Mary Vaughan  
Manager, Nurse Aide Program
